The exercise emphasises decision velocity, evidence preservation, and business-centric risk tradeoffs.</p> <p>Why these matters Builds muscle memory for spotting subtle indicators of compromise, executing the Stop Analyze Report protocol under stress, and aligning technical containment with executive communications to protect continuity and reputation.</p>	

	<p>Key Outcomes</p> <ul style="list-style-type: none"> • Detect: Improve recognition of low-signal indicators across network, endpoint, and human vectors. • Contain: Practice a repeatable Stop Analyze Report cadence to reduce dwell time and limit blast radius. • Coordinate: Strengthen handoffs between SOC, IT Ops, forensics, and executive leadership. • Protect Reputation: Exercise stakeholder messaging and regulatory posture while response actions proceed. • Manage People: Learn to influence and control different personas to keep response focused and auditable. <p>Duration: Game Time: 30 mins Presentation: 20 minutes Wrap up: 10 minutes</p> <p>Moderator Sanjeev Gathani Group Compliance Officer RV Health</p>
